Dear All,

I am following-up on my earlier email inquiring about News24's non-reporting on the Amnesty International report and the inference that this is intended to conceal the existence of apartheid in Israel from its readers. Perhaps you can find some time on Human Rights Day to respond?

Relatedly, I have seen many highly opinionated pieces from News24 editors recently that engage in very moralising rhetoric about 'being on the wrong side of history' in relation to Ukraine, which only generates an even starker contrast with the non-reporting of the Amnesty International findings.

Yours sincerely,

Dr Seán Muller
