Hi Dr Muller

Thanks for reaching out and bringing this to our attention. We appreciate feedback from our readers to spot potential gaps in our reporting and to understand what they would like to read on our platforms.

The non-reporting of the Amnesty International report can only be due to oversight and reporting during a time when there is a deluge of stories, events and developments.

We have reported, and will continue to report, on developments in the Middle East.

Below is but a snapshot of our coverage across News24 to keep our readers as informed as possible:

<https://www.news24.com/news24/columnists/guestcolumn/iqbal-jassat-does-ukraine-symbolise-palestines-pain-if-so-why-the-double-standards-by-the-west-20220301>
